## DETAILED ACTION

### *Election/Restrictions*

Applicants' election of Invention I, claims 1-14, 22 and 23 and Species I, claims 1-4, 7-14, 22 and 23 in the reply filed on February 10, 2006 is acknowledged. Because applicants did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)). Accordingly, claims 5, 6 and 15-21, 24 and 25 have been withdrawn from consideration pursuant to 37 CFR 1.142(b) as being directed to a nonelected invention and species, there being no allowable generic or linking claim.

### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4, 7-14, 22 and 23 are rejected under 35 U.S.C. 102(b) as being anticipated by European reference '073.

Note Fig. 42 showing a second end portion 29 of the recess (unnumbered) being enlarged relative to a first end portion (unnumbered). Note Fig. 30 showing the circular curvature for the arcuate abutment surface 56, disc-shaped configuration 56 necessarily for the locking member, and scalloped surface (unnumbered).
